

## Live Your Dream

Your life is a beautiful dream. You have the potential to live any adventure you can imagine. Following your curiosity and your aliveness gives you the power to transform your life into the legend you have always wanted to live.

Every day you see worrying images on your mental screen that you mistake for reality. It is easy to get attached to your self-image and to the roles that society has chosen for you, and to spend your days just talking about life instead of living it.

But your true nature is much more than your thoughts and actions. In the movie of your life you are the projector. You cast the meaning and substance onto the field of perceptions. When you put your attention on conflict or difficulties, you bring those realities into existence. But when you learn to shift your attention to activating the lifestyle you want to live, you become the architect of a wonderful, fulfilling life.

***Live Your Dream*** is two days of celebration and training designed to restore the curiosity we all enjoyed as children. As your mind clears and your heart opens you recall your natural vitality. You begin to immerse yourself in sensations of aliveness that bring a vivid quality to your experience.

This seminar provides two days of dialogue, together with exercises that quickly adjust your mood and attitude by reminding you of the sweet kindness that forms the core of your being.

You can change your life and you can even change the people around you, if you are willing to transform your own perceptions first. Please join us for two days of lightness and laughter to get the fresh start you need.
